Resetting Password Via Mobile Device – ADP ESS

4. Select Communication Channel (via mobile is SMS)

PLEASE NOTE: if SMS channel doesn't show, you need to select email channel. Once you go into your profile, re-enter your mobile number. This will reset the system and then next time you will have the SMS channel.

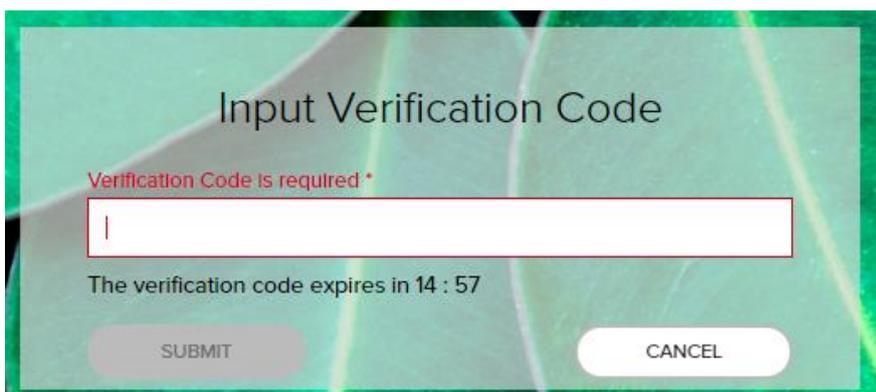

5. If you selected SMS you will receive a Verification code to your mobile device (shown below).

Please note: The verification code will expire in 15minutes so be sure to do this right away.

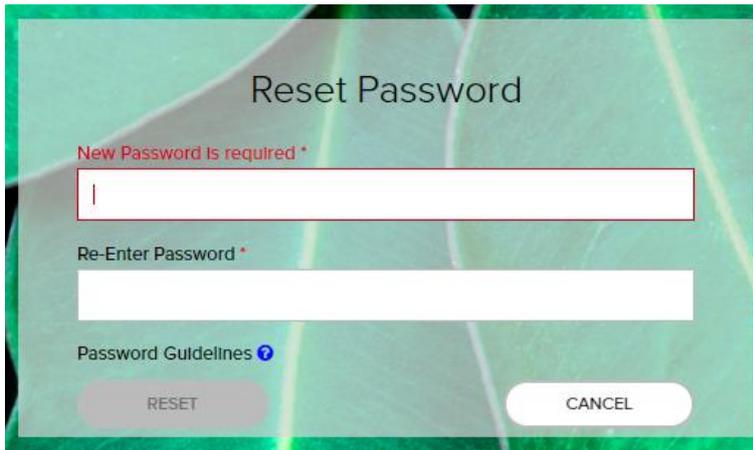

6. Enter the verification code
